- to buy

N°3 Flared screws M3x10 to assemble the Back part

- to buy

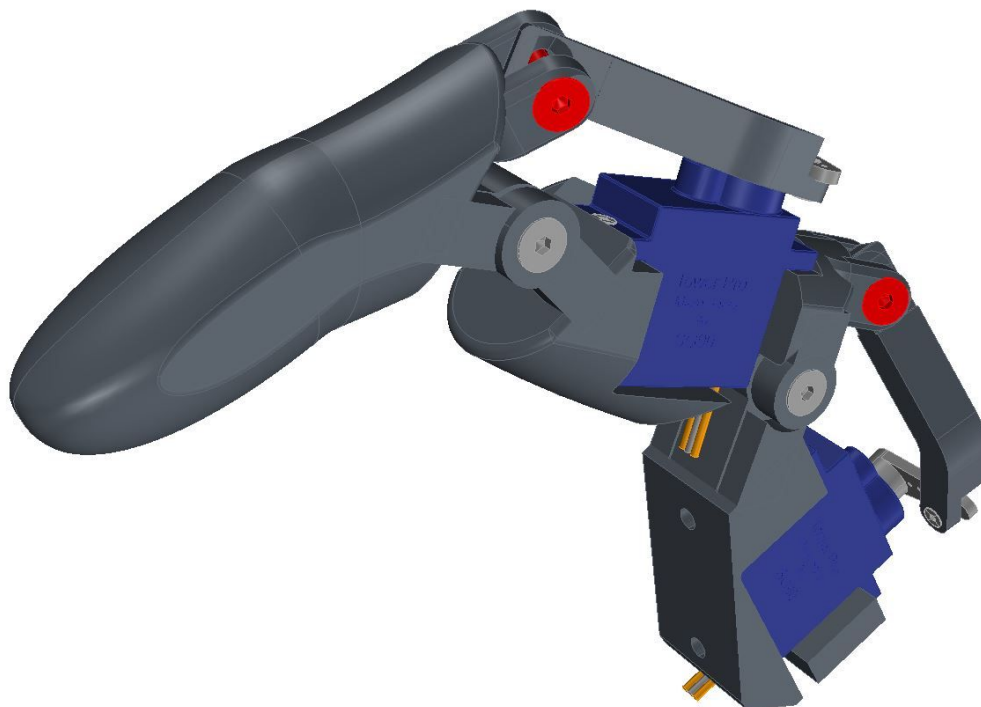

N°3 Flared screws M3x10 to assemble the Dock support

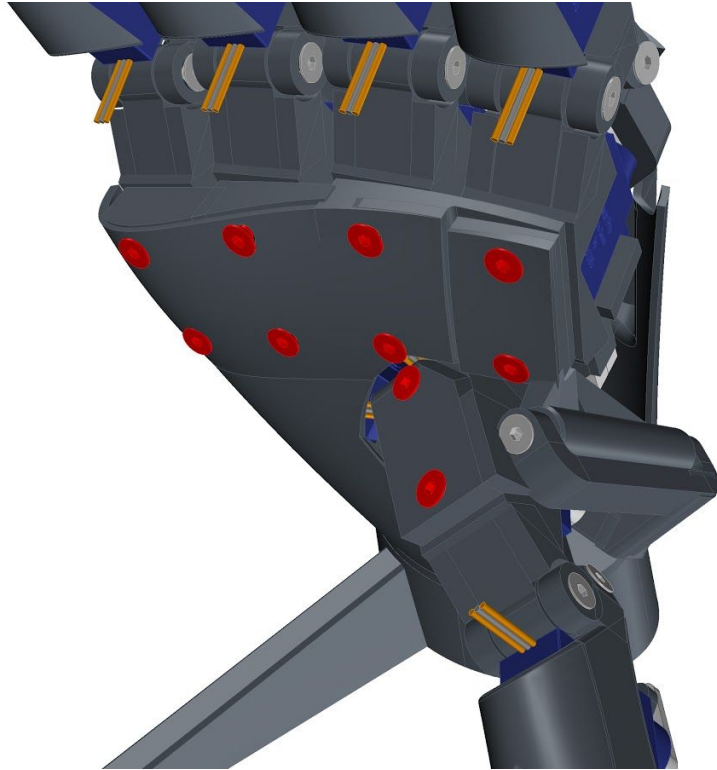

- to buy

ASSEMBLY INSTRUCTIONS

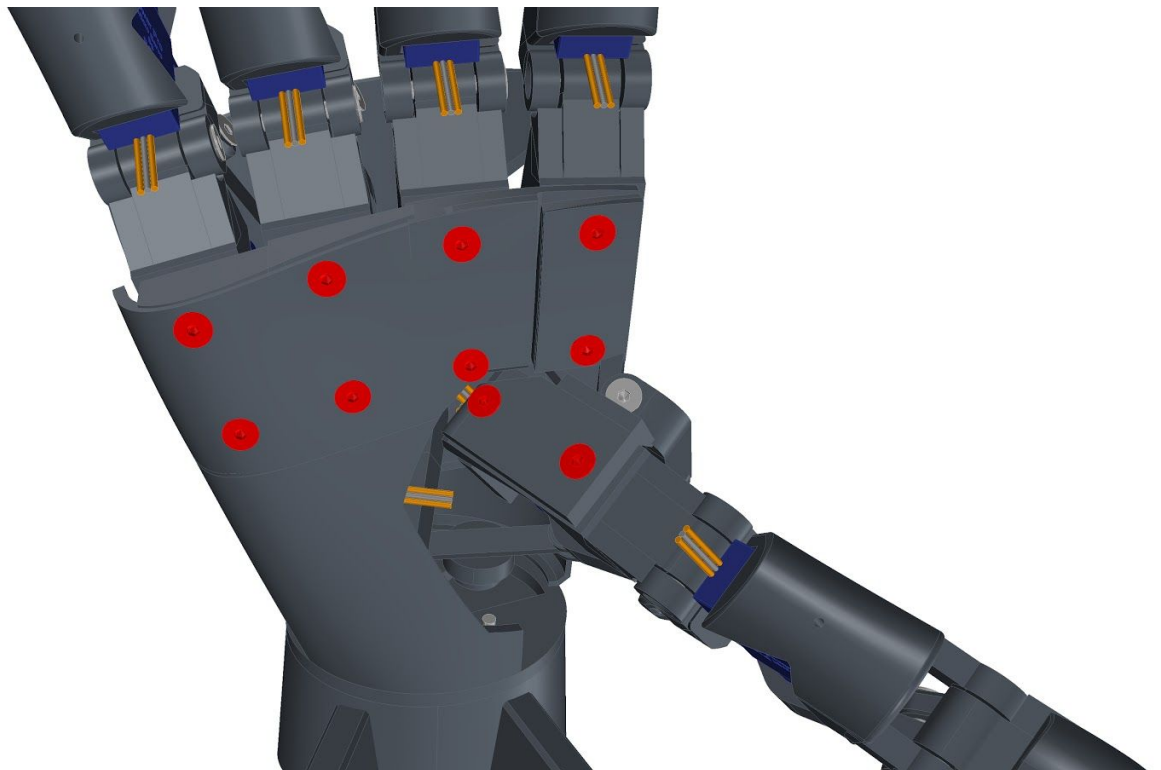

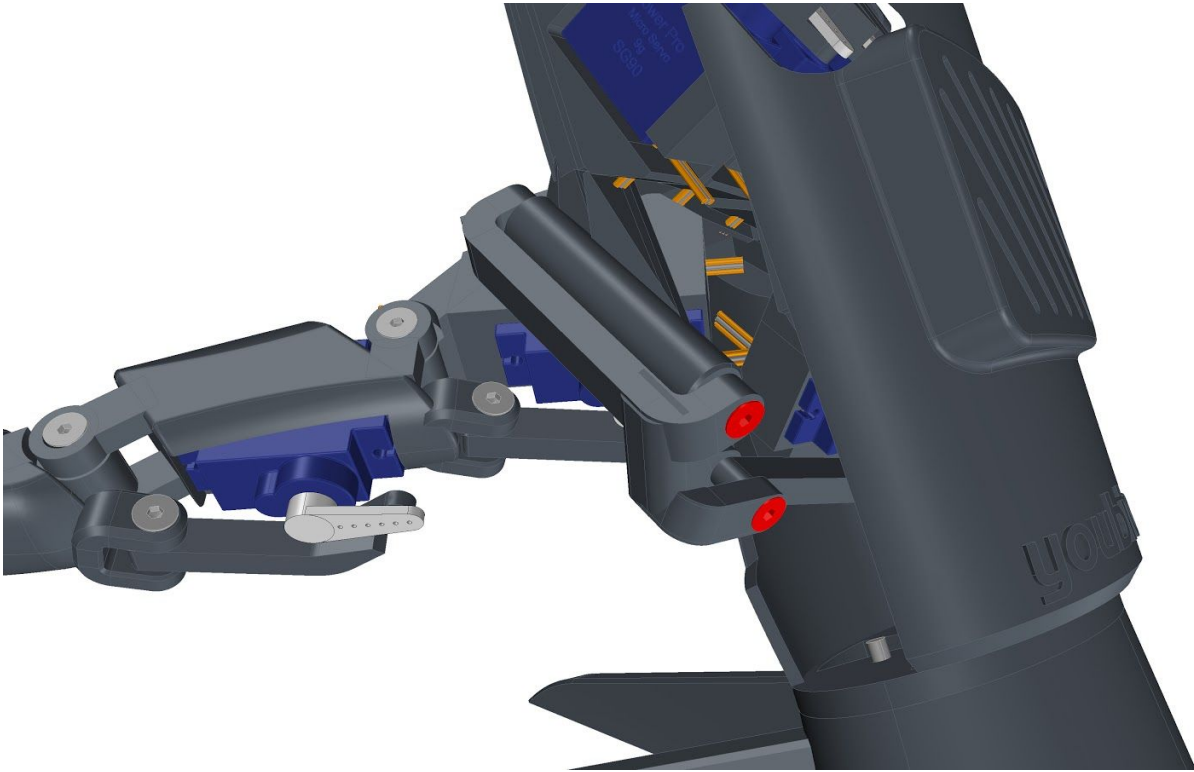

Tighten the countersunk screws with a hexagon socket to assembly the fingers.
Don't screw the screws all the way down, let the pieces rotate (make sure that the pieces can rotate, but leave a slight friction).

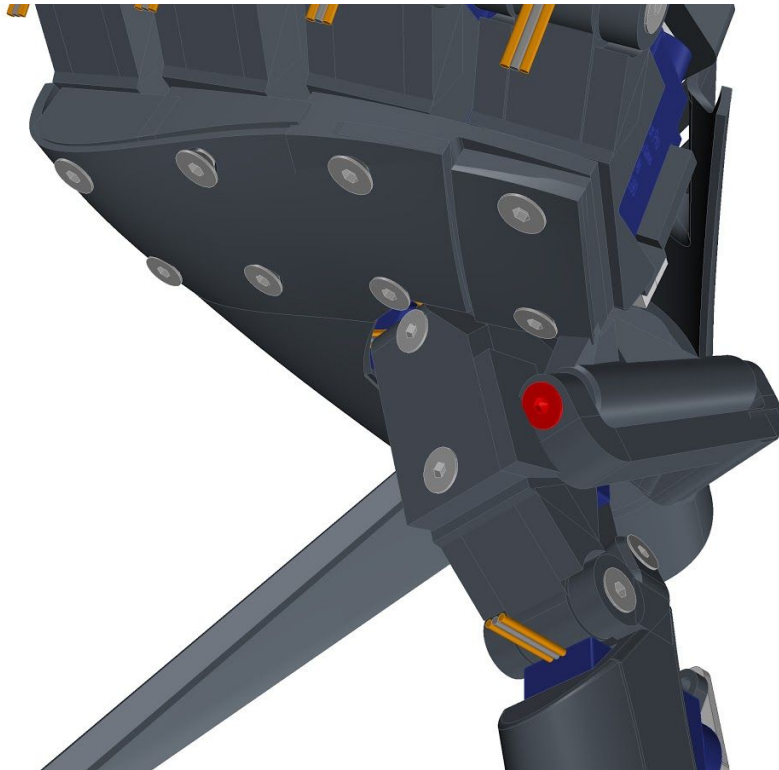

Tighten the countersunk screws with a hexagon socket to assembly the fingers. Don't screw the screws all the way down, let the pieces rotate (make sure that the pieces can rotate, but leave a slight friction).
